3. ACADEMICS AFFAIRS:

This term witnessed various forms of competitions in the three domains of education (Cognitive- Quiz, Class activities, Psychomotor- Exercises, and Affective- public speaking, morning speech etc). The welfare of learners was a major focus of this term as teaching and learning were conducted in a serene learning environment with particular attention given to the different needs of the learners. The result has been quite encouraging.

Besides the foregoing, the school ensured an improved learning environment, while the students were exposed to different methodologies suitable for their individual learning. The school has also ensured that the environment is safe and conducive to learning. For us, every child is important and has a right to learn new things on a daily basis, this is why we use the EKIS teaching method in class as it enables our learners to learn in a cooperative manner and helps us to have an academic needs of every child attended to.

4. PUNCTUALITY TO SCHOOL

Punctuality is the Soul of business. This is to remind our esteemed parents that resumption to school remains 7:45 am Tuesday – Friday. The school frowns at lateness as it is compulsory for all scholars to participate in the morning assembly.

5. EXTERNAL EXAMINATION REGISTRATION:

The school has registered its students for the year 2024 external examination (WAEC, NECO, BECE). We use this medium to advise our parents whose children are in these classes to encourage them to study very hard for these exams for optimal performance. We have adequately prepared them; revisions are still going on. With your prayers, we are trusting and believing in God for a better outcome this year.

6. AFTER-SCHOOL/EXTENSION CLASSES

The extension classes as usual were arranged to hold from Tuesday – Friday for the SS3 Students.

Also, the JSS3 Students were fully engaged from Tuesday to Friday for the extension classes. Mock examinations were also conducted for the learners to ascertain their level of preparedness for external examinations. The essence of doing this is to fully prepare them to get the best grades in their Junior and Senior External Examinations respectively.
